

The FAA Safety Team presents:

Tis' The Season

Longer nights and colder weather bring unique challenges to airmen every November. Winter flying conditions can adversely affect flight operations. Poor weather conditions with fast moving fronts, strong and gusty winds, and icing conditions are just some of the obstacles that require careful planning in order to minimize their effects. Operation in this environment requires special winter operating procedures. This seminar is designed to refresh your memory of cold weather and night time operations. Click on the link below to see all of the details and register TODAY!

Directions: From Highway 52 North, take Exit 111A and follow signs to airport. From Highway 52 South, take exit 112 Akron Road, turn right. Follow to North Liberty Street and turn right. Old Airport terminal Building is past Landmark FBO on your left. Look for seminar signs. Seminar in old Piedmont Airline Terminal. Call 336-813-5566 for help with directions if needed.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
